## February Availability List 2019

Botanical Name		Description	Plant Type	Pot size mm	Orders
Acacia alata	Winged wattle	Shrub, 0.3-2.1m high. Fl white-cream/yellow/pink, April to Dec. Variety of soils. Near water, rocky hills, breakaways, salt pans, clay flats.	Med	140	
Acacia cyclops	Coastal wattle	Dense shrub or tree (rarely) 0.8-4m high. Fl. yellow, Sep –Dec or Jan-May. White grey sand, coastal sands and sand dunes and limestone.	Med	5L	
Acacia glaucoptera	Flat Wattle	Clay and gravelly lateritic soils. Yellow flowering winter/spring.	Sm	5L	
Acacia Littorea	Wattle	Coastal limestone and dunes. Pale yellow and flowering Spring.	Sm	140	
Acacia rostellifera	Sumner-scented Wattle	Dense shrub or tree, 1-6m high. Fl. yellow, Jul to October to Dec. Mainly on consolidated sand dunes.	Lg	140	
Adenanthos Cuneatus	Basket Flower	Sandy well drained soils. Grey/green foliage, bronze tips - very ornamental. Spring flowering	GC	140	
Adenanthos Cunninghamii	Albany Woolly Bush	Well drained coastal soils. Attracts honey eating birds.	Med	140	
Adenanthos Cunninghamii	Albany Woolly Bush	As above.	Med	5L	
Adenanthos Sericeus	Albany Woolybush	Well drained soils, suited to coastal gardens.	Lg	140	
Adenanthos Sericeus	Albany Woolybush	As above.	Lg	5Lt	
Agonis flexuosa	Peppermint Tree	Well drained soils. Mature leaves emit a pleasant peppermint aroma.	Med tree	140	
Agonis flexuosa	Peppermint Tree	As above.	Med tree	5Lt	
Agonis Flexuosa	Peppermint Tree	Well drained soils. Mature leaves emit a pleasant peppermint aroma.	Med tree	5Lt	
Agonis 'Nana'	Dwarf Peppermint Tree	Well drained soils. Mature leaves emit a pleasant peppermint aroma.	Med	140	

Botanical Name		Description	Plant Type	Pot size mm	Orders
Agonis 'Nana'	Dwarf Peppermint Tree	As above.	Med	5L	
Allocasuarina fraseriana	Sheoak	Dioecious, erect tree, 5-15 m high, bark fibrous, reddish-brown. Fl. brown, May-Oct. Lateritic soils, white, grey or yellow sand. Jarrah forest, sand dunes	Lg	140	
Alyogyne huegelii	Lilac Hibiscus	Most soil types. A variety of habitats. Purple flowering winter/summer.	Med	140	
Alyogyne hakeifolia		Erect, slender or spreading shrub, 1-3m high. Fl. blue-purple/purple/cream-yellow, May or Aug-Dec or Jan-Feb. Red sandy soils, rocky loam, limestone. Undulating plains.	Med	140	
Anigozanthos flavidus	Tall Kangaroo Paw	Rhizomatous, perennial, herb, 0.5-3m high. Fl. yellow-green/brown red, Nov-Dec or Jan. Grey yellow sand, clay, gravel. Drainage lines, fringing wetlands, roadside gutters.	Med	140	
Banksia ilicifolia	Holly-Leaved Banksia	Erect tree or shrub, to 12m high with epicormic buds. Fl. Red/orange/yellow/cream, Jan to Dec. White or grey sand, black sandy loam, limestone, granite, quartz, dunes or low-lying flats.	Lg	140	
Billerdaria heterophylla	Australian Bluebells	Woody, rounder shrub. Fl. Blue/white/pink. Dec or Jan to Feb. Sands, saline soils. Coastal areas, around inland salt lakes.	Climber	140	
Boronia heterophylla	Kaglan Boronia	Erect slender shrub, 1-3m high. Fl. red/pink, Sep to Nov. Sandy soils. Wet flats & places, river banks	Med	140	
Brachyscome iberifolia	Swan River Daisy	Erect, branching annual, herb, 0.5-0.45 m high. Fl. White-blue-purple, July to Nov. Sandy, clay or saline soils. Along water courses, on sand hills, in depressions over granite.	Sm	140	
Callistemon Captain Cook	Dwarf Bottlebrush	Shrub 1.5-2m tall. Most soils. Red flowering Spring/Summer	Med	140	
Callistemon Captain Cook	Dwarf Bottlebrush	As above.			
Callistemon KPS	Red Bottlebrush	Most soils, coastal areas. Bright red flowers spring to summer.	Lg	140	
Callistemon KPS	Red Bottlebrush	As above.	Lg	5L	
Callistemon Perth Pink	Pink Bottlebrush	Tall open shrub to 4m, deep pink flowers in spring to summer.	Lg	140	
Callistemon Wildfire	Red Bottlebrush	Most soils, coastal areas. Bright red, bottlebrush flowers spring to summer.	Sm tree	140	

Botanical Name		Description	Plant Type	Pot size mm	Orders
Callistemon Wildfire	Red Bottlebrush	As above.	Small Tree	5L	
Callistemon Little John	Dwarf Bottlebrush	0.75-1m H, 0.5-1m W Fl Spring, Summer. Sandy, clay, loamy, sandy loam and poor soils.	Sm	1401	
Callistris pressii	Rottneest Island Pine	Sandy soils and winter wet depressions.	Sm tree	5L.	
Callistris pyramidalias	Swamp Cypress		Sm Tree	140	
Calothamnus Lateralis		Heavy soils and wet depressions. Red flowering winter/spring	Med	140	
Calothamnus Quadrifidius	One-side Bottlebrush	Wide variety of soil types. Red, white to yellow flowering in Spring/Summer.	Med	140	
Calothamnus Quadrifidius	One-side Bottlebrush	As above.	Med	5L	
Calothamnus sanguineus	Silky leaved net bush.	Well drained soils. Red flowering winter/spring.	Med	140	
Carpobrotus Virescens	Coastal Pigface	Sandy soils and great for coastal gardens. Pink flowering	GC	140	
Centella Asiatica	Herb	Best grown in winter-wet depressions	GC	140	
Chamelaucium cilliatum	Albany Wax	Erect or spreading shrub. Flowering white/pink in summer. Grows in a variety of soils.	Sm	140	
Chamelaucium cilliatum	Albany Wax	As Above	Sm	5L	
Chamelaucium floriferum Cross	Walpole X Geraldton Wax	Well drained, coastal conditions. White flowers in winter spring.	Med	140	
Chamelaucium floriferum Cross	Walpole X Geraldton Wax	As above.	Med	5L	
Chamelaucium Sp		Shrub, 0.3-3.5 m high Well drained, coastal conditions, White flowers in winter to spring.	Sm	140	
Chamelaucium Sp		As above.	Med	5 L	
Chamelaucium uncinatum	Geraldton Wax	Well drained soils, coastal conditions. Purple flowering in winter to spring.	Lg	140	
Chamelaucium uncinatum	Geraldton Wax	As above.	Lg	5L	
Chorizema Cordatum	Flame Pea	Most soil types. Best in moist part shaded areas.	Climber	140	
Commersonia Erythrogyna		Cream/white flowers in Spring. Grows around Boyupbrook area. Declared threatened flora.	Sm	140	
Commersonia Erythrogyna		As above.	Sm	5L	
Correa 'wyn's wonder'	Variegated Native Fuchsia	Most soils in shady position. Great container plant. Pale carmine-pink bell flower.	Sm	140	
Correa 'Wyn's Wonder'	Variegated Native Fuchsia	As above.	Sm	5L	
Corymbia calophylla		Tree or Mallee,(rarely), to 40(-60)m high. Rough bark, tessellated. Fl. white/pink, Dec or Jan-May. Red brown clay loam, orange brown sandy clay, gravel, grey sand over limestone,	Lg	140	

Botanical Name		Description	Plant Type	Pot size mm	Orders
		granite, laterite. Flats, hills, slopes, breakaways, wetlands, fringing salt marshes, beside drainage lines.			
Corymbia Ficifolia	Red Flowering Gum	Sandy soils and grows best in full sun. Red/orange flowering in Summer, autumn. Ideal street tree	Sm Tree	140	
Corymbia Ficifolia	Red Flowering Gum	As above.	Sm Tree	5L	
Darwinia Citriodora	Lemon Scented Myrtle	Requires freely draining soils. Lemon scented leaves when crushed.	Sm	140	
Darwinia Citriodora	Lemon Scented Myrtle	Requires freely draining soils. Lemon scented leaves when crushed.	Sm	5L	
Dipolaena Dampieri	Southern Dipoleana	Sandy, coastal conditions. Red/orange flowering in winter, spring.	Med	140	
Diplolaena Dampieri	Southern Diplolaena	As above.	Med	5L	
Dodonaea Purpurea	Purple Hop-bush	Bronze green foliage, purple/red fruit capsules. Fast growing hedge.	Lg	140	
Eremophila Calorhabdos	Red Rods	Erect, spindly shrub, 1-3 m high. Fl. red/pink-purple-red, Aug to Dec or Jan to May. Sand, clay or loam. Undulating plains, winter-wet areas.	Sm	140	
Eremophila Denticulata	Emu Bush	Erect, open shrub, 0.5-2.5 m high. Fl. pink-orange/yellow-orange-red, Aug to Dec or Jan to Feb. Alluvium, sand, sandy clay loam. River beds & plains, laterite breakaways.	Sm/Med	140	
Eremophila Denticulata	Emu Bush	Erect, open shrub, 0.5-2.5 m high. Fl. pink-orange/yellow-orange-red, Aug to Dec or Jan to Feb. Alluvium, sand, sandy clay loam. River beds & plains, laterite breakaways.	Sm/Med	5L	
Eremophila Glabra "prostrate"	Prostrate Emu Bush	Well drained soils and costal conditions. Silvery/green foliage. Drought tolerant.	GC	140	
Eremophila Glabra 'Upright'	Emu Bush	Well drained soils and costal conditions. Silvery/green foliage. Drought tolerant.	Sm/Med	140	
Eremophila Maculata Pink		Variety of soil types. Drought tolerant. Pink flowering winter to late spring.	Sm	5L	
Eucalyptus Caesia	Silver Princess	Heavier soils. Pink flowers in winter.	Sm tree	1410	
Eucalyptus Caesia	Silver Princess		Sm tree	5L	
Eucalyptus Erythrocorys	Red Capped Gum	Sandy soils. Yellow flowering Summer/Autumn.	Sm tree	140	
Eucalyptus Erythrocorys	Red Capped Gum	Sandy soils. Yellow flowering Summer/Autumn.	Sm tree	5L	
Eucalyptus decipiens		Tree, 1.5-15m h, bark rough, flaky or ribbon. Fl white Aug to Dec or Jan. White, yellow or grey sand, sandy clay,	Lg Tree	140	

Botanical Name		Description	Plant Type	Pot size mm	Orders
		gravelly loam, laterite. Sandplains, hills, swamp margins, winter moist conditions.			
Eucalyptus Torquata	Coral Gum	Well drained soils and drought tolerant. Pink fluffy flowers.	Sm tree	5Lt	
Eucalyptus X Tetragona	Tallerack	(Mallee), to 3 m high. White-cream flowering, summer. Sand, grey clayey sand. Sandplains, sandhills, rocky slopes.	Sm tree	5L	
Ficinia Nodosa	Knotted Club-rush	most soils and seasonally-wet swamp lands	Strappy	140	
Grevillea 'Apricot Glow'	Olive Grevillea	Fast growing, great screen plant, Coastal conditions Apricot flowering in winter to spring.	Lg	140	
Grevillea 'Apricot Glow'	Olive Grevillea	Fast growing, great screen plant, Coastal conditions Apricot flowering in winter to spring.	Lg	5L	
Grevillea Caramarra	Gold	Coastal conditions. Bird attracting. Pink, cream flowering Autumn, winter.	Med	140	
Grevillea Caramarra	Orange	Coastal conditions. Bird attracting. Orange, cream flowering Autumn/winter.	Sm	5L	
Grevillea Caramarra	Red	Coastal conditions. Bird attracting. Red flowering Autumn, winter.	Med	140	
Grevillea Fililoba	Ellendale	Coastal conditions. Bird attracting. Red flowering from autumn to winter.	Med	5L	
Grevillea 'Lemon Supreme'	Lemon Supreme	Coastal conditions. Bird attracting. Yellow flowering from Autumn to Winter.	Med	140	
Grevillea 'Lemon Supreme'	Lemon Supreme	Coastal conditions. Bird attracting. Yellow flowering from Autumn to Winter.	Med	5L	
Grevillea Obtusifolia	Gingin Gem	Grows well in a range of soil. Suitable as a covering embankments and rockeries.	GC	140	
Grevillea Olivacea 'Red'	Olive Grevillea	Fast growing, great screen plant, Coastal conditions Red flowering in Winter to Spring.	Lg	140	
Grevillea Olivacea 'Red'	Olive Grevillea	Fast growing, great screen plant, Coastal conditions Red flowering in Winter to Spring.	Lg	5L	
Grevillea Olivacea 'Yellow'	Olive Grevillea	Fast growing, great screen plant, Coastal conditions. Yellow flowering in winter to spring.	Lg	140	
Grevillea Olivacea 'Yellow'	Olive Grevillea	Fast growing, great screen plant, Coastal conditions. Yellow flowering in winter to spring.	Lg	5L	
Grevillea obtusifolia	Gingin Gem	Grows well in a range of soil. Suitable as a covering embankments and rockeries.	GC	140	
Grevillea obtusifolia	Gingin Gem	Grows well in a range of soil. Suitable as a covering embankments and rockeries.	GC	5L	
Grevillea Preissii	Seaspray	Coastal conditions, bird attracting. Red flowering in Winter.	GC	5L	

Botanical Name		Description	Plant Type	Pot size mm	Orders
Grevillea Primeloides		Non-lignotuberous shrub, 0.4-2.4 m high. Yellow-orange flowering in winter/spring. Gravelly soils over granite. Rocky hillsides.	Med	5L	
Grevillea Red Sunset		A beautiful, spreading shrub reaches only 1.5 m high with spectacular red spider flowers in profusion in Winter and Spring. Frost tolerant	Med	140	
Grevillea 'Standard'	Olive Grevillea	Fast growing, great screen plant, Coastal conditions Red flowering in Winter to Spring.	Lg	30L	
Grevillea Thelmanniana		Well drained soils. Bird attracting and red flowering.	GC	140	
Grevillea Vestita		Sandy soils over granite or limestone. White flowering in winter to summer.	Lg	140	
Grevillea Vestita		As above.	Lg	5L	
Gompholobium tomentosum	Hairy Yellow Pea	Erect shrub, 0.3-1m high. Fl yellow, July to Dec or Jan. White grey or yellow sand, sandy clay, lateritic sand. Coastal limestone & sand dunes, undulating plains.	Sm	140	
Goodenia Varia	Kalgoorlie Honey Dew	Well drained soils, frost and drought tolerant. Yellow flowering spring.	GC	140	
Haemodorum spicatum	Bloodroot	Bulbaceous, perennial, herb. 0.3-2m high. Fl black/brown/yellow-brown, Oct to Dec or Jan. White, grey or yellow sand, laterite, sandy clay. Dry and seasonally wet sites.	Med	5L	
Hakea Laurina	Pin Cushion Hakea	Sand, sandy clay soils. Pink/cream flowering in Winter.	Lg	140	
Hakea Laurina	Pin Cushion Hakea	Sand, sandy clay soils. Pink/cream flowering in Winter.	Lg	5L	
Hemiandra pungens	Snakebush	Prostrate to ascending shrub, 0.05-1m high Fl white/blue-purple/pink, Jan-Dec. Sand, clay and loam, gravel, laterite, granite. Rock outcrops.	Sm	140	
Hibbertia Racemosa	Coastal Buttercup	Small shrub to 30 cm high and 1 m wide. Grey green leaves and yellow flowers from late winter to spring.	Sm	140	
Hypocalymma Angustifolium	White Myrtle	Moist soils. White and pink flowering in winter and spring.	Sm	140	
Hypocalymma Angustifolium	White Myrtle	Moist soils. White and pink flowering in winter and spring.	Sm	5L	
Hypocalymma cordatum		Moist shady areas	Sm	140	
Hypocalymma cordifolium	Golden Veil	Moist soils, Great neat hedge	Sm	140	
Hypocalymma Xanthopetalum		Shrub 0.15-1 m. Yellow/yellow-orange flowering winter/spring. Well drained sandy soils.	Sm	140	
Juncus kraussii	Sea Rush	Perennial, herb 0.3-1.2m high. Fl brown/red Oct to Dec or Jan. White or	Med	140	

Botanical Name		Description	Plant Type	Pot size mm	Orders
		grey sand, clay. Swamps, brackish estuaries, saline flats.			
Juncus pallidus	Pale Rush	Rhizomatous, robust perennial, herb. 0.5-2m high. Fl green Oct to Dec. Clay, swamps, water courses.	Med	140	
Kennedia Beckxiana	Cape Arid Kennedia	Most soil types. Red flowering Spring/Summer.	Climber	140	
Kennedia Lateritia	Augusta Kennedia	Coastal conditions. Threatened flora.	Climber	140	
Kennedia Lateritia	Augusta Kennedia	As above.	Climber	5L	
Kennedia Prostrata	Running Postman	Usually sandy gravelly soils. Red flowering in autumn and spring.	GC	140	
Kunzea Baxteri		Most soils. Red flowering Autumn/Spring.	Med	140	
Kunzea Baxteri		As above.	Med	5L	
Kunzea 'Eye Screen'		Fast growing, great hedge or screening plant. Native to WA. Full sun/part shade. Low water requirements.	Lg	140	
Kunzea 'Eye Screen'		As above.	Lg	5L	
Kunzea glabrescens	Spearwood	1.5-4m high. Fl yellow Oct to Nov. Clay, sandy soils. Edges of swamps, lakes, rivers, moist depressions.	Lg	140	
Leptospermum Rotundifolium	Rounded Leaf Teatree	Small, rounded leaves and large purple-lavender flowers in spring. Well-drained soils. Tolerates heavy frosts. Eastern states.	Lg	140	
Leptospermum Sericeum	Silver Teatree	Shrub, 0.5-3 m high. Fl. pink, May to Oct. Skeletal sandy soils. Granite outcrops & hills.	Lg	140	
Leptospermum sericeum	Silver Tea Tree	As above	Lg	5L	
Macrozamia Riedlei	Zamia Palm or Cycad	Tree or (cycad), 0.5-3 m high, small, usually trunkless; leaves few, glossy, flat or openly keeled, narrow leaflets; short cones. Fl. Sep to Oct. Lateritic soils. Jarrah forests.	Sm	5L	
Meeboldina Roycei		Most soils, swamps and creek lines	Sm grass	5L	
Melaleuca heugleii	Chenille Honey Myrtle	Well drained soils and coastal conditions. Pink/white flowering spring/summer	Lg	140	
Melaleuca Incana 'Nana'	Grey Honey Myrtle	Most soils. Tinted blue-green or grey foliage. Cream flowers in spring.	Sm	140	
Melaleuca Incana 'Nana'	Grey Honey Myrtle	Most soils. Tinted blue-green or grey foliage. Cream flowers in spring.	Sm	5L	
Melaleuca Lanceolata	Rottnest Teatree	Most soil types. Suit coastal conditions and tolerates limestone and salt.	Sm tree	140	
Melaleuca 'Little Nussy'		Seaside gardens and a hedge. Full sun to part shade. Grows well in many soils, clay, and sand and tolerates limestone.	Med	140	

Botanical Name		Description	Plant Type	Pot size mm	Orders
Myoporum insulare	Blueberry Tree	Dense low spreading or erect shrub or tree. 0.25-5m high. Fl white Jul to Dec or Jan to Feb. White/grey sand. Coastal dunes & limestone.	Lg	140	
Myoporum oppositifolium	Twin Leafed Myoporum	Erect slender or sprawling shrub. 0.4-1.5m high. Fl white/white-purple Aug to Dec or Jan or May to Apr. Sandy soils, loams. Coastal areas, along creeks & rivers.	Med	140	
Myoporum 'Fine Leaf'	Creeping Boobialla	Tolerates a wide range of soils. A great bank stabiliser and lawn substitute.	GC	140	
Myoporum Purpurea	Creeping Boobialla	Tolerates a wide range of soils. A great bank stabiliser and lawn substitute.	GC	140	
Olearia Axilaris	Coastal Daisybush	Coastal limestone and sand dunes or well-drained soil. Yellow flowering.	Med	140	
Orthrosanthus Multiflorus	Morning Iris	Well drained soils. Multi blue flowering in spring	Grass	140	
Orthrosanthus Multiflorus	Morning Iris	Well drained soils. Multi blue flowering in spring	Grass	5L	
Pattersonia Occidentalis	Purple Flag/Herb	Most soil conditions, coastal, winter-wet depressions. Purple flowering Winter/Summer.	Sm	140	
Pattersonia Occidentalis	Purple Flag/Herb	Most soil conditions, coastal, winter-wet depressions. Purple flowering Winter/Summer.	Sm	5L	
Pimelea Bonne Petite	Rice Flower	Well drained soils, coastal conditions. Pale pink flowering winter to spring.	Sm	140	
Pimelea Bonne Petite	Rice Flower	As above.	Sm	5L	
Pimelea Snowflake	Rice Flower	0.8-1m high Sandy, sandy loam, clay loam White flowers in Spring.	Sm	140	
Pimelea Snowflake	Rice Flower	As above.	Sm	5L	
Pultenaea Skinneri	Skinner's Pea				
Regelia Inops		Pink-purple-blue flowering summer/winter. Sandy soils. Winter-wet depressions, sandplains.	Med	140	
Regelia velutina	Barrens Regelia	Shrub or tree, 1-3m high. Fl red Sep to Nov or Feb. Skeletal sandy soils.	Med	140	
Regelia velutina	Barrens Regelia	As above.	Med	5L	
Rhagodia Baccata	Berry Saltbush	Sand dunes, coastal and limestone tolerant. Red berries, bush tucker	Med	140	
Rhagodia Spinescens	Spiny Saltbush	Divaricately branched, often spinescent shrub, 0.3-1.5(-2.5) m high. Sandy clay, clay. Dried river beds.	GC	140	
Ricinocarpos tuberculatus	Wedding Bush	Well drained soils. Frost tolerant. White flowering spring summer. Erect shrub 0.5-3m high.	Lg	140	
Ricinocarpos tubercalatus	Wedding Bush	As above.	Lg	5L	
Santalum Spicatum	Sandlewood	Hemiparasitic on roots. Green/red, flowering Autumn/Winter. Well-drained soil.	Lg	5L	
Schoenoplectus validus		Silt and sand. Fresh or brackish water, swamps , estuaries.	Med	140	

<b>Botanical Name</b>		<b>Description</b>	<b>Plant Type</b>	<b>Pot size mm</b>	<b>Orders</b>
Scaevola aemula	Mauve Clusters	Prefers a moist, well-drained soil. Blue-purple fan flowers in spring- autumn.	GC	140	
Templetonia retusa	Cockies Tongue	Well drained soils, coastal conditions. Red pea shaped flower in winter and spring.	Med	140	
Templetonia retusa	Cockies Tounge	As above.	Med	5L	
Tetragonia decumbens	Sea Spinach	Decumbent or trailing shrub 0.1-0.3m high to 2m wide. Fl yellow Mar to Nov. White sand. Coastal & estuarine sand dunes.	Sm	140	
Thryptomene Saxicola	Rock Thryptomene	Well drained soils, drought tolerant. Mass of small pink flowers in Autumn and Spring.	Sm	140	
Thryptomene Saxicola	Rock Thryptomene	Well drained soils, drought tolerant. Mass of small pink flowers in Autumn and Spring.	Sm	5L	
Verticordia chrysantha		Shrub 0.3-1m high. Fl yellow Aug to Dec or Jan. Sandy gravelly soils, deep yellow sand. Undulating plains.	Sm	140	
Verticordia Plumosa	Plumed Featherflower	Most soil types, seasonally wet situations and road verges. Pink flowering in Spring summer.	Sm	140	
Verticordia Plumosa	Plumed Featherflower	Most soil types, seasonally wet situations and road verges. Pink flowering in Spring summer.	Sm	5L	
Vimenea juncea	Swishbush	Erect often weeping shrub 1-4m high Fl yellow Oct to Dec or Jan. Sandy & clay soils. Near lakes & swamps, river banks, winter wet depressions.	Med	140	
Westringia Dampieri	Shore Westringia	Sandy coastal conditions. White flowering most of the year.	Med	140	
Westringia Dampieri	Shore Westringia	Sandy coastal conditions. White flowering most of the year.	Med	5L	
Xanthorrhoea Preissii	Grass Trees	Perennial tree-like monocot, to 5 m high, trunk to over 3 m. Most soil types.	Grass	11L
