NOVEMBER AVAILABILITY LIST FOR 2017

Botanical Name	Common Name	Description	Plant Type	Pot size mm	Orders
Acacia glaucoptera	Flat Wattle	Clay & gravelly lateritic soils. Yellow flowering winter/spring.	Sm	5L	
Acacia lasiocarpa	Panjang	Most soil types. Yellow flowering Winter/spring	Sm	140	
Acacia littorea	Wattle	Coastal limestone and dunes. Pale yellow and flowering Spring.	Sm	140	
Acacia pentadenia	Karri Wattle	Often slender, willowy Sm tree. Yellow-cream flowering Spring. Variety of soils. Often in swampy areas.	Sm tree	5L	
Adenanthos cuneatus	Basket flower	Sandy well drained soils. Grey/green foliage, bronze tips - very ornamental. Spring flowering	GC	140	
Adenanthos cuneatus	Basket flower	Sandy well drained soils. Grey/green foliage, bronze tips - very ornamental. Spring flowering	GC	5L	
Adenanthos cunninghamii	Albany woolly bush	Well drained coastal soils. Attracts honeyeating birds.	Med	140	
Adenanthos cunninghamii	Albany woolly bush	Well drained coastal soils. Attracts honeyeating birds.	Med	5L	
Adenanthos sericeus	Albany woolybush	Well drained soils, suited to coastal gardens.	Lg	140	
Agonis flexuosa	Peppermint tree	Well drained soils. Mature leaves emit a pleasant peppermint aroma.	Med tree	140	
Agonis 'Nana'	Dwarf Peppermint tree	Well drained soils. Mature leaves emit a pleasant peppermint aroma.	Med	140	
Anigozanthos flavidus	Tall Kangaroo Paw	Most soils and tolerates poorly drained soils. Red flowering Spring/summer.	Strappy	140	
Banksia littoralis	Swamp Banksia	Seasonally damp areas. Wind break and erosion control. Yellow flowering winter	Sm tree	140	
Billerdaria fusiformis	Australian Bluebells	Suits coastal conditions. Blue flowering Spring to Summer.	Climber	140	
Billerdaria fusiformis	Australian Bluebells	Suits coastal conditions. Blue flowering Spring to Summer.	Climber	5L	
Callistemon 'Captain Cook'	Dwarf bottlebrush	Shrub 1.5 - 2m Most soil types. Red flowering Spring/summer.	Med	140	
Callistemon 'KPS'	Red Bottlebrush	Most soils, coastal areas. Bright red, bottlebrush flowers spring to summer.	Sm tree	140	

Botanical Name	Common Name	Description	Plant Type	Pot size mm	Orders
Callistemon pheoniceus	Lesser bottlebrush	Moist well drained soils. Bird attracting. Red flowering late winter to summer.	Med	140	
Callitris preissii	Rottnest Island Pine	Sandy soils and winter wet depressions.	Sm tree	5L.	
Calothamnus lateralis		Heavy soils and wet depressions. Red flowering winter/spring	Med	140	
Calothamnus quadrifidius	One-side Bottlebrush	Wide variety of soil types. Red, white to yellow flowering in Spring/Summer.	Med	140	
Calothamnus quadrifidius	One-side Bottlebrush	Wide variety of soil types. Red, white to yellow flowering in Spring/Summer.	Med	5L	
Calothamnus rupestris	Mouse ears	Most well drained soils. Attracts honey eaters. Red flowering winter/spring	Lg	140	
Chamelaucium sp. Walpole	Walpole wax	Well drained, coastal conditions. White flowers in winter to spring.	Med	140	
Chamelaucium sp. Walpole	Walpole wax	Well drained, coastal conditions. White flowers in winter to spring.	Med	5 L	
Chamelaucium species.	Pink	Well-drained soil, coastal conditions. Pink flowering in winter to spring.	Lg	140	
Carpobrotus virescens	Coastal pigface	Sandy soils and great for coastal gardens. Pink flowering	GC	140	\$3.00
Centella asiatica	Herb	Best grown in winter-wet depressions	GC	140	
Chorizema cordatum	Flame Pea	Most soil types. Best in moist part shaded areas.	Climber	140	
Chorizema dicksonii	Tellow-eyed Flame Pea	Most soil types. Erect or spreading shrub, 1 m high. Red & Orange flowering in spring/summer	Sm	140	
Commersonia erythrogyna		Cream/white flowers in Spring. Grows around Boyupbrook area. Declared threatened flora.	Sm	140	
Correa 'Dusky Bells'	Native fuchsia	Most soils in shady position. Great container plant. Pale carmine-pink bell flower.	Sm	140	
Correa 'Wyn's Wonder'	Variegated native Fuchsia	Most soils in shady position. Great container plant. Pale carmine-pink bell flower.	Sm	140	
Correa 'Wyn's Wonder'	Variegated native Fuchsia	Most soils in shady position. Great container plant. Pale carmine-pink bell flower.	Sm	5L	
Corymbia ficifolia	Red Flowering Gum	Sandy soils and grows best in full sun. Red/orange flowering in Summer, autumn. Ideal street tree	Sm Tree	140	
Corymbia ficifolia	Red Flowering Gum	Sandy soils and grows best in full sun. Red/orange flowering in Summer, autumn. Ideal street tree	Sm Tree	5L	
Darwinia citriodora	Lemon Scented Myrtle	Requires freely draining soils. Lemon scented leaves when crushed.	Sm	140	
Darwinia citriodora	Lemon Scented Myrtle	Requires freely draining soils. Lemon scented leaves when crushed.	Sm	5L	

Botanical Name	Common Name	Description	Plant Type	Pot size mm	Orders
Dichondra repens	Kidney Weed	Sandy soils. White flowering spring. Great lawn substitute.	GC	F/Tube	
Diplolaena dampieri	Southern Diplolaena	Sandy, coastal conditions. Red/Orange flowering in winter, spring.	Med	140	
Dodonaea Purpurea	Purple Hop-Bush	Bronze green foliage, purple/red fruit capsules. Fast growing hedge.	Lg	140	
Dodonaea Purpurea	Purple Hop-Bush	Bronze green foliage, purple/red fruit capsules. Fast growing hedge.	Lg	5L	
Eremophila 'Burgundy'	Emu bush	Tolerates hot, dry conditions and poor soils. Lip-stick-red flowering.	GC	140	
Eremophila 'Burgundy'	Emu bush	Tolerates hot, dry conditions and poor soils. Lip-stick-red flowering.	GC	5L	
Eremophila calorhabdos	Red rods	Erect, spindly shrub, 1-3 m high. Fl. red/pink-purple-red, Aug to Dec or Jan to May. Sand, clay or loam. Undulating plains, winter-wet areas.	Sm	140	
Eremophila denticulata	Emu bush	Erect, open shrub, 0.5-2.5 m high. Fl. pink-orange/yellow-orange-red, Aug to Dec or Jan to Feb. Alluvium, sand, sandy clay loam. River beds & plains, laterite breakaways.	Sm/Med	140	\$3.00
Eremophila denticulata	Emu bush	Erect, open shrub, 0.5-2.5 m high. Fl. pink-orange/yellow-orange-red, Aug to Dec or Jan to Feb. Alluvium, sand, sandy clay loam. River beds & plains, laterite breakaways.	Sm/Med	5 l	
Eremophila gibbifolia	Coccid emu-bush	It is a small, rare shrub in the wild, it has small, fleshy, lumpy leaves and lilac-coloured to purple flowers, spotted inside. Great container plant.	Sm	140	
Eremophila glabra "prostrate"	Prostrate Emu Bush	Well drained soils and costal conditions. Silvery/green foliage. Drought tolerant.	GC	140	
Eremophila glabra "upright"	Emu bush	Well drained soils and costal conditions. Silvery/green foliage. Drought tolerant.	Sm/Med	140	
Eremophila glabra "upright"	Emu bush	Well drained soils and costal conditions. Silvery/green foliage. Drought tolerant.	Sm/Med	5L	
Eremophila maculata Pink		Variety of soil types. Drought tolerant. Pink flowering winter to late spring.	Sm	5L	
Eucalyptus caesia	Silver Princess	Heavier soils. Pink flowering Winter.	Sm tree	140	
Eucalyptus caesia	Silver Princess	Heavier soils. Pink flowering Winter.	Sm tree	5L	
Eucalyptus erythrocorys	Red Capped gum	Sandy soils. Yellow flowering Summer/Autumn.	Sm tree	140	
Eucalyptus erythrocorys	Red Capped gum	Sandy soils. Yellow flowering Summer/Autumn.	Sm tree	5L	
Eucalyptus erythrocorys	Red Capped gum	Sandy soils. Yellow flowering Summer/Autumn.	Sm tree	20L	\$15.00

Botanical Name	Common Name	Description	Plant Type	Pot size mm	Orders
<i>Eucalyptus gomphocephala</i>	Tuart	White flowering in summer/autumn. Grows best in sand over limestone. Coastal plains.	Lg tree	140	
<i>Eucalyptus lehamanii</i>	Bushy Yates	Small tree 7m tolerates most soil types.	Small tree	5L	
<i>Eucalyptus x tetragona</i>	Tallerack	(Mallee), to 3 m high. White-cream flowering, summer. Sand, grey clayey sand. Sandplains, sandhills, rocky slopes.	Sm tree	5L	
<i>Eucalyptus torquata</i>	Coral gum	Well drained soils and drought tolerant. Pink fluffy flowers.	Sm tree	140	
<i>Eucalyptus torquata</i>	Coral gum	Well drained soils and drought tolerant. Pink fluffy flowers.	Sm tree	5Lt	
<i>Eucalyptus wandoo</i>	Wandoo	Sandy loam, clay loam, gravel, laterite, granite. Stony rises, undulating terrain. White-cream, Summer/Autumn	Lg tree	140	
<i>Ficinia nodosa</i>	Knotted club-rush	most soils and seasonally-wet swamp lands	Strappy	140	
<i>Gastrolobium praemorsum</i>		Heavy soils types. Will tolerate coastal and wet-boggy ground. Red-green flowering Spring/summer.	GC	140	
<i>Grevillea 'Apricot Glow'</i>	Olive grevillea	Fast growing, great screen plant, Coastal conditions Apricot flowering in winter to spring.	Lg	140	
<i>Grevillea 'Apricot Glow'</i>	Olive grevillea	Fast growing, great screen plant, Coastal conditions Apricot flowering in winter to spring.	Lg	5L	
<i>Grevillea 'Bronze Rambler'</i>		Most soil types. Red flowering Winter/spring. Full sun, part shade. Frost tolerant.	GC	140	
<i>Grevillea caramarra</i>	Gold	Coastal conditions. Bird attracting. Pink, cream flowering Autumn, winter.	Med	140	
<i>Grevillea caramarra</i>	Gold	Coastal conditions. Bird attracting. Pink, cream flowering Autumn, winter.	Med	5L	
<i>Grevillea caramarra</i>	Orange	Coastal conditions. Bird attracting. Orange, cream flowering Autumn/winter.	Sm	140	
<i>Grevillea caramarra</i>	Red	Coastal conditions. Bird attracting. Red flowering Autumn, winter.	Med	140	
<i>Grevillea fililoba</i>	Ellendale	Coastal conditions. Bird attracting. Red flowering from autumn to winter.	Med	140	
<i>Grevillea crithmifolia prostrate</i>	Green Carpet	Most well drained or heavy soils. Coastal conditions and drought tolerant.	GC	140	
<i>Grevillea 'Lemon Supreme'</i>	Lemon Supreme	Coastal conditions. Bird attracting. Yellow flowering from Autumn to Winter.	Med	140	
<i>Grevillea 'Lemon Supreme'</i>	Lemon Supreme	Coastal conditions. Bird attracting. Yellow flowering from Autumn to Winter.	Med	5L	

Botanical Name	Common Name	Description	Plant Type	Pot size mm	Orders
<i>Grevillea obtusifolia</i>	Gingin Gem	Grows well in a range of soil. Suitable as a covering embankments and rockeries.	GC	140	
<i>Grevillea olivacea</i> 'Red'	Olive Grevillea	Fast growing, great screen plant, Coastal conditions Red flowering in Winter to Spring.	Lg	140	
<i>Grevillea olivacea</i> 'Red'	Olive Grevillea	Fast growing, great screen plant, Coastal conditions Red flowering in Winter to Spring.	Lg	5L	
<i>Grevillea olivacea</i> 'Yellow'	Olive grevillea	Fast growing, great screen plant, Coastal conditions. Yellow flowering in winter to spring.	Lg	140	
<i>Grevillea olivacea</i> 'Yellow'	Olive grevillea	Fast growing, great screen plant, Coastal conditions. Yellow flowering in winter to spring.	Lg	5L	
<i>Grevillea primeloides</i>		Non-lignotuberous shrub, 0.4-2.4 m high. Yellow-orange flowering in winter/spring. Gravelly soils over granite. Rocky hillsides.	Med	140	
<i>Grevillea preissii</i>	Seaspray	Coastal conditions, bird attracting. Red flowering in Winter.	GC	5L	
<i>Grevillea</i> Red Sunset		A beautiful, spreading shrub reaches only 1.5 m high with spectacular red spider flowers in profusion in Winter and Spring. Frost tolerant	Med	140	
<i>Grevillea</i> 'Standard'	Olive Grevillea	Fast growing, great screen plant, Coastal conditions Red flowering in Winter to Spring.	Lg	30L	\$35.00
<i>Grevillea thelmanniana</i>		Well drained soils. Bird attracting and red flowering.	GC	140	
<i>Grevillea vestita</i>		Sandy soils over granite or limestone. White flowering in winter to summer.	Lg	140	
<i>Gompholobium tomentosum</i>	Hairy Yellow Pea	Well drained sandy soils. Coastal limestone & sand dunes, undulating plains. Yellow, Spring/summer.	Sm	140	
<i>Goodenia varia</i>	Kalgoorlie honey dew	Well drained soils, frost and drought tolerant. Yellow flowering spring.	GC	140	
<i>Hakea laurina</i>	Pin Cushion Hakea	Sand, sandy clay soils. Pink/cream flowering in Winter.	Lg	140	
<i>Hakea laurina</i>	Pin Cushion Hakea	Sand, sandy clay soils. Pink/cream flowering in Winter.	Lg	5L	
<i>Hakea petiolaris</i>	Sea urchin Hakea	Loam granite outcrops. Pink and cream flowering autumn/winter	Lg	140	
<i>Hakea trifurcata</i>	Two-Leaf Hakea	Most soil types. Flowers white/cream-pink, Winter/Spring.	Med	140	
<i>Hakea trifurcata</i>	Two-Leaf Hakea	Most soil types. Flowers white/cream-pink, Winter/Spring.	Med	5L	
<i>Hibbertia cuneiformis</i>	Cutleaf Hibbertia	Most soils and coastal conditions. Yellow flowering Winter to summer.	Med	140	

Botanical Name	Common Name	Description	Plant Type	Pot size mm	Orders
Hibbertia racemosa	Coastal Buttercup	Small shrub to 30 cm high and 1 m wide. Grey green leaves and yellow flowers from late winter to spring.	Sm	140	
Hypocalymma angustifolium	White Myrtle	Moist soils. White and pink flowering in winter and spring.	Sm	140	
Hypocalymma cordifolium	Golden Veil	Moist soils, Great neat hedge. Variegated foliage	Sm	140	
Hypocalymma cordifolium		Moist soils, Great neat hedge	Sm	140	
Hypocalymma xanthopetalum		Shrub 0.15-1 m. Yellow/yellow-orange flowering winter/spring. Well drained sandy soils.	Sm	140	
Isopogon formosus	Rose Coneflower	Shrub, 0.2-2 m high. Pink-purple/red flowering winter/spring. Most soil types.	Med	140	
Kennedia beckxiana	Cape Arid Kennedia	Most soil types. Red flowering Spring/Summer.	Climber	140	
Kennedia lateritia	Augusta Kennedia	Coastal conditions. Threatened flora.	Climber	140	
Kennedia prostrata	Running postman	Usually sandy gravelly soils. Red flowering in autumn and spring.	GC	140	
Kunzea baxteri		Most soils. Red flowering Autumn/Spring.	Med	140	
Kunzea baxteri		Most soils. Red flowering Autumn/Spring.	Med	5L	
Kunzea 'Eye Screen'		Fast growing, great hedge or screening plant. Native to WA. Full sun/part shade. Low water requirements.	Lg	140	
Orthrosanthus multiflorus	Morning iris	Well drained soils. Multi blue flowering in spring	Grass	140	
Leptospermum rotundifolium	Rounded leaf Tea-Tree	Small, rounded leaves and large purple-lavender flowers in spring. Well-drained soils. Tolerates heavy frosts. Eastern states.	Lg	140	
Leptospermum sericeum	Silver Teatree	Shrub, 0.5-3 m high. Fl. pink, May to Oct. Skeletal sandy soils. Granite outcrops & hills.	Lg	140	
Macrozamia riedlei	Zamia Palm or Cycad	Tree or (cycad), 0.5-3 m high, small, usually trunkless; leaves few, glossy, flat or openly keeled, narrow leaflets; short cones. Fl. Sep to Oct. Lateritic soils. Jarrah forests.	Sm	140	
Meeboldina roycei		Most soils, swamps and creek lines	Sm grass	5L	
Melaleuca fulgens	Honeymyrtle	Flowers pink, Jul to Dec. Grows well in most soils and also suited to sandy and coastal soils.	Sm	5L	
Melaleuca incana 'Nana'	Grey honey myrtle	Most soils. Tinted blue-green or grey foliage. Cream flowers in spring.	Sm	140	
Melaleuca 'Little Nessy'		Seaside gardens and a hedge. Full sun to part shade. Grows well in many soils, clay, and sand and tolerates limestone.	Med	140	
Myoporum 'Fine leaf'	Creeping Boobialla	Tolerates a wide range of soils. A great bank stabilizer and lawn substitute.	GC	140	

Botanical Name	Common Name	Description	Plant Type	Pot size mm	Orders
Myoporum 'Fine leaf'	Creeping Boobialla	Tolerates a wide range of soils. A great bank stabilizer and lawn substitute.	GC	5L	
Myoporum purpurea	Creeping boobialla	Tolerates a wide range of soils. A great bank stabiliser and lawn substitute.	GC	140	
Orthrosanthus multiflorus	Morning iris	Well drained soils. Multi blue flowering in spring	Grass	140	
Orthrosanthus multiflorus	Morning iris	Well drained soils. Multi blue flowering in spring	Grass	5L	
Pattersonia Occidentalis	Purple Flag/Herb	Most soil conditions, coastal, winter-wet depressions. Purple flowering Winter/Summer.	Sm	140	
Pericalymma ellipticum	Swamp Teatree	Heavier soils around high edges of swamps. White-pink flowering spring/summer.	Lg	140	
Pimelea Bonne Petite	Rice flower	Well drained soils, coastal conditions. Pale pink flowering winter to spring.	Sm	140	
Pimelea Bonne Petite	Rice flower	Well drained soils, coastal conditions. Pale pink flowering winter to spring.	Sm	5L	
Pimelea	Snowflake	Well drained soils, coastal conditions. White flowering winter to spring.	Sm	140	
Pultenaea skinneri	Skinner's Pea	Slender shrub, 1-2 m high. Flowering yellow/orange & red winter/spring. Sandy or clayey soils. Winter-wet depressions.	Sm	140	
Regelia inops		Pink-purple-blue flowering summer/winter. Sandy soils. Winter-wet depressions, sandplains.	Med	140	
Rhagodia baccata	Berry Saltbush	Sand dunes, coastal and limestone tolerant. Red berries, bush tucker	Med	140	
Rhagodia spinescens	Spiny Saltbush	Divaricately branched, often spinescent shrub, 0.3-1.5(-2.5) m high. Sandy clay, clay. Dried river beds.	GC	140	
Ricinocarpos tuberculatus	Wedding bush	Well drained soils. Frost tolerant. White flowering spring summer.	Lg	140	
Ricinocarpos tuberculatus	Wedding bush	Well drained soils. Frost tolerant. White flowering spring summer.	Lg	5L	
Santalum spicatum	Sandlewood	Hemiparasitic on roots. Green/red, flowering Autumn/Winter. Well-drained soil.	Lg	5L	\$20.00
Templetonia retusa	Cockies tounge	Well drained soils, coastal conditions. Red pea shaped flower in winter and spring.	Med	140	
Thryptomene saxicola	Rock Thryptomene	Well drained soils, drought tolerant. Mass of small pink flowers in Autumn and Spring.	Sm	140	
Thryptomene saxicola	Rock Thryptomene	Well drained soils, drought tolerant. Mass of small pink flowers in Autumn and Spring.	Sm	5L	

Botanical Name	Common Name	Description	Plant Type	Pot size mm	Orders
Verticordia plumosa	Plumed Featherflower	Most soil types, seasonally wet situations and road verges. Pink flowering in Spring summer.	Sm	140	
Verticordia plumosa	Plumed Featherflower	Most soil types, seasonally wet situations and road verges. Pink flowering in Spring summer.	Sm	5L	
Viola hederacea	Native Violet	Moist well drained soils. Semi-shade areas. Cream/purple/white flowering most of the year.	GC	140	
Westringia dampieri	Shore Westringia	Sandy coastal conditions. White flowering most of the year.	Med	140	
Westringia dampieri	Shore Westringia	Sandy coastal conditions. White flowering most of the year.	Med	5L	
Xanthorrhoea preissii	Grass trees	Perennial tree-like monocot, to 5 m high, trunk to over 3 m. Most soil types.	Grass	11L	\$25.00
